Equipment Required

You will require an Ethernet router at your premises. If you don't already have one, Spirit can provide a suitable device at additional cost.

Service Availability

The service is not available in all areas or to all customers. It is only available to eligible business customers located in buildings connected to Spirit national network infrastructure. To see if your address is in coverage, please check via spirit.com.au/business

Key Details

This service provides symmetrical speeds of up to 500Mbps. The nominated network access speed profile is delivered to the active Ethernet port. Local network and Wi-Fi performance subject to end-user equipment.

The actual speeds you experience depend on many factors, including your equipment, the number of end-users, the source of the data and the applications in use.

Install

Standard install provides the service to the hand off point of demarcation (Active Ethernet Port). You must install a compatible router or firewall and any cabling required after the hand off point.

Installation is offered on the basis of available information relating to the install location and strictly subject to a site survey. Spirit reserves the right not to progress an installation if site conditions are unsatisfactory or subject to third party commercial terms.

Subject to local conditions for new network installations, a Fee for Service (FFS) arising from local infrastructure works may apply, any fee resulting shall be referred to the nominated end-customer for review and acceptance. If the FFS charge is not accepted within 14 calendar days and Spirit is advised of same in writing, the end customer may cancel the applicable service without penalty* prior to installation.

* Fibre services delivered on Telstra infrastructure may incur a charge of \$1550.00 exGST each, in the event of an order not proceeding by the undersigned.

Bundling with other Spirit products

A range of Bundling options is available with this service, please enquire with us.

Information About the Pricing (All pricing Ex. GST)

Installation and plan pricing is affected by and depends on data infrastructure requirements, and is provided based on customer's location and data services available to premises.

Minimum Cost over the Contract Term: Minimum Cost is the combination of establishment/ installation charges and total monthly charges multiplied by the Contracted Term.
