Equipment and Service Required

IPTEL1 requires one of Spirit Business Multi VLAN Broadband Services. Where available, Spirit Fibre as the best preferred connection method. You will require an Ethernet router at your premises. If you don't already have one, Spirit can provide a suitable device at additional cost.

Service Availability

The service is not available in all areas or to all customers. It is only available to eligible business customers in buildings connected to Spirit national data network infrastructure. To see if your address is in coverage, please check via spirit.com.au/business

Key Details

IPTel is delivered across Spirit's national On-Net Network, eliminating the hassle of dealing with isolated phone systems at different offices. It allows you to utilise a fully featured communication suite over the network without installing expensive, on-premise, PBX equipment.

Installation

Voice Termination Set up and Hardware charges apply. Installation charge will be quoted on an individual basis, as installation requirements differ site to site. Onsite Training charged at \$110.00 per hour. Total installation and training TBA on case by case basis.

Bundling with other Spirit products

This product is available as an add-on to Spirit Business Broadband products, such as Spirit Air, Spirit Fibre, and Spirit EoC.
